FEEDING DIRECTIONS

Prince Regency Maintenance is designed to supplement forages to horses that are at maintenance or light to medium work. Adjust feeding rate between 0.3 and 1.0# per 100 pound of body weight in order to maintain good body condition. If forage quality is poor provide at least 0.5# per 100# of body weight.
Do not exceed 0.3 PPM Selenium in the total diet.
Provide salt free choice at all times.
