SPECIES

DAIRY

DAIRY TOWELS 150/PK

- This semi-bleached 2-ply towel is so versatile, it's like having two towels in one.
- Keep the 2 plies together for maximum absorbency on tough jobs.
- Or, pull the plies apart and use a single ply for maximum economy on lighter jobs.
- Either way, you can rely on this towel for scrubbing strength and drying absorbency.
- Test after test has proven that single-use dairy towels help control the spread of mastitis.

- Additional tests show that cows with a low somatic cell count produce more milk, and low somatic cell count milk consistently has a higher cheese yield.
- That's why it's vital to both you and your producer to use a good quality single-service dairy towel.
- Nelson-Jameson offers the largest selection of dairy towels to meet the needs of any dairy farm.

ROTH SUGARBUSH CONTINUED

CLEAR 5/16 SMART SPOUT (12 PACK)

- 30 degree Smart Spout
- Clear without barbs
- 5/16" drill bit is recommended for tapping
- 5/16" tubing spout to fit 5/16" tubing, made to be disposable yearly to reduce the bacteria the tree has to endure season to season
- Based on Acer Center Research CDL smart Spouts gave significantly more sap than standard black health spout of the same diameter in the 2 monitored systems

• Also, the contamination in the tap holes using smart spouts was significantly less at the end of the season

AVAILABLE FROM WHSE:1

Prince#	Mfg#	MP	UPC	QB	M/O
138003	66090064PK	10	855220006215	10	1
