## BIG TINE NO-TILL BUCK BRUNCH

- For those hard to plant food plot areas, Buck Brunch is the answer!
- Our food plot mix is a combination of clovers, turnips, rape & cereal grains, & there is no heavy equipment necessary for preparing your plot
- Just expose the soil and broadcast!
- Buck Brunch may be planted in Spring or Fall & germinates typically within seven days of rain fall
- Our blend only requires a minimum of 3-4 hours of sunlight a day, so it has no problem thriving in lightly shaded areas

• Each 4 lbs bag will cover 1/4 acre

AVAILABLE FROM WHSE:1,3

Prince#	Mfg#	Size	MP	UPC	QB	M/O

### GRAYMONT

### FEEDS

#### INGREDIENTS

### HYDRATED LIMATE

- The magnesium oxide component of dolomitic quicklime requires high pressure levels or long slaking periods to hydrate completely.
- Dolomitic Type S hydrated lime products are produced by adding water to quicklime in closed containers called autoclaves.
- The autoclave provides the high pressure needed to completely hydrate magnesium oxide.
- Type S dolomitic hydrates are useful in construction and industrial applications.

#### ALFALF-RACK PLUS (COVERS .25 ACRE)

- Includes exclusive WINA-100 perennial forage chicory - vastly more tender and palatable to deer than traditional, more waxy textured chicory
- Extremely cold tolerant
- Heat, drought and disease resistant
- Coated with RainBond for enhanced seedling survivability
- Lasts up to 5 years from a single planting
- Deep rooted and has been developed to grow successfully on hilltops, hillsides and in well drained lighter, upland soils

AVAILABLE FROM WHSE:1

Prince#	Mfg#	Size	MP	UPC	M/O
047333	IAP3.75	3.75#	6	789976403755	1

#### ALFALF-RACK PLUS (COVERS 1.25 ACRE)

- High quality blend of succulent forage plot foods
- X-9 alfa technology provides a greater yield with better taste than traditional alfalfa varieties
- Addition of chicory makes this mix more cold and heat tolerant
- Perennial plants last up to 5 years from a single planting

AVAILABLE FROM WHSE:1

Prince#	Mfg#	Size	MP	UPC	M/O
047350	IAP16.5	16.5 #	1	789976440200	1

#### ARREST MAX

- Kills annual and perennial grasses
- Kills grassy weeds without harming broadleaf wildlife food plots when used as directed
- Rainfast in one hour
- Treats one acre

AVAILABLE FROM WHSE:1

Prince#	Mfg#	Size	MP	UPC	M/O
047346	AM1P	1 PINT	4	789976910178	1

#### BEETS & GREENS (COVERS .5 ACRE)

- Annual - Massive tonnage from early fall through late winter
- Contains proprietary Whitetail Institute varieties of kale, turnips, and radishes
- Includes sugar beets to produce even more sweet attractiveness

AVAILABLE FROM WHSE:1

Prince#	Mfg#	Size	MP	UPC	M/O
047335	BG3	3 #	6	789976950037	1

## EXTREME (COVERS .25 ACRE)

- Includes the highly attractive and extremely drought tolerant Persist Forb developed by Whitetail Institute specifically for deer
- Includes WINA-100 perennial forage chicory - vastly more tender and palatable to deer than traditional, more waxy textured chicories

- Extremely sweet, durable, versatile and highly attractive to deer
- Can tolerate annual rainfall levels as low as 15 inches per year
- Provides up to 44% antler-building protein

- Coated with RainBond for enhanced seedling survivability
- Lasts up to 5 years from a single planting
- Neutral pH soils and higher annual rainfall can produce even better performance

AVAILABLE FROM WHSE:1

Prince#	Mfg#	Size	MP	UPC	M/O
047334	EXT5.6	5.6 #	4	78997670284	1

## FUSION (COVERS .5 ACRE)

- Includes the newest proprietary clovers scientifically designed by the Whitetail Institute specifically for food plots for deer
- Includes WINA perennial forage chicory for maximum attraction, high protein levels, longevity, and variety

- Provides up to 44% antler-building protein
- Extremely cold tolerant, and resistant to drought, heat and disease
- Coated with RainBond for enhanced seedling survivability

- Lasts up to 5 years from a single planting
- Extremely attractive to deer
- Fusion is an excellent perennial for areas with moderately drained soils to heavy soils that hold moisture

AVAILABLE FROM WHSE:1

Prince#	Mfg#	Size	MP	UPC	M/O
047332	FUS3.15	3.15 #	6	789976113159	1

## IMPERIAL AMBUSH (COVERS .25 ACRE)

- An outstanding, highly palatable, fall annual planting for whitetail deer
- Attractive early & late season forages with sweet lupines and sugar beets to keep deer in your plots from germination, until the end of hunting season

- Cold tolerant, easy to plant and our field testing shows this could quickly become one of our best-selling annual forages

AVAILABLE FROM WHSE:1

Prince#	Mfg#	Size	MP	M/O
047351	AM10	10 #	4	1

## IMPERIAL CLOVER (COVERS 2.25 ACRE)

- Packed with antler-building protein
- Helps does deliver heavier, healthier fawns and produce more milk
- Extremely cold tolerant

- Heat, drought and disease resistant
- Coated with RainBond for enhanced seedling survivability
- Lasts up to 5 years from a single planting
- Started the food plot revolution and is still the standard by which other food plot products are judged

- Performance is best when planted on good heavy soil that holds moisture

AVAILABLE FROM WHSE:1

## POWER PLANT (COVERS .75 - 1 ACRE)- AVAILABLE 2018

- Designed to provide high protein and massive tonnage during the antler growing, fawning and lactating times of late spring and summer
- Includes a true forage-type, vining soybean that can tolerate heavy grazing better than agricultural soybean types

- Includes climbing forage peas for increased variety and high protein tonnage
- Includes small amount sunflowers to provide a climbing lattice for vining legumes

- Includes Sunn Hemp, a highly attractive forage that withstands heavy grazing and that also provides additional structure for the vining legumes to climb.

- Provides tons of high-protein forage and is also used by deer as a bedding area

- PowerPlant is also Arrest MAX approved!

- Whitetail Institute Arrest MAX grass herbicide can be used to control labeled grasses in PowerPlant stands

AVAILABLE FROM WHSE:1

## WHITETAIL INSTITUTE CONTINUED

### SLAY

- Proven effective against weeds in field tests
- Easily applied using a hand, ATV or tractor sprayer
- Greatly reduces broadleaf weed competition
- Treats up to one acre

AVAILABLE FROM WHSE:1

Prince#	Mfg#	Size	MP	UPC	M/O
047347	SH40Z	4 OZ	6	789976900049	1

### SOIL TEST KIT

- Ensure the most successful food plot possible
- Easy to use
- Saves money by eliminating excess lime and fertilizer purchases
- Guaranteed better food plot performance
- Use the same laboratory the professional farmers use

AVAILABLE FROM WHSE:1

Prince#	Mfg#	MP	UPC	QB	M/O
047349	STK	12	789976000091	12	1

### SURE FIRE SEED OIL PLUS

- A combination of highly refined seed oil and special oil based surfactants
- Provides more rapid surface setting and penetration of the leaf
- Designed for use with today's complex herbicides

AVAILABLE FROM WHSE:1

Prince#	Mfg#	Size	MP	UPC	M/O
047348	S01P	1 PINT	6	789976900186	1

### TALL TINE TUBERS (COVERS .5 ACRE)

- Includes Tall Tine Turnip - a new turnip variety genetically developed by Whitetail Institute
- Six years research, development and testing
- Two food sources - foliage above ground and tubers underground
- Extremely drought and cold tolerant
- Establishes and grows rapidly
- Considered by many to be the most effective late food plot product available
- Designed to establish and grow quickly, produce lots of tonnage, and attract and hold deer during the early and late hunting seasons

AVAILABLE FROM WHSE:1

Prince#	Mfg#	Size	MP	UPC	M/O
047337	TT3	3 #	6	789976400037	1

### WHITETAIL OATS (COVERS .5 ACRE)

- Premium oat product designed for early fall planting
- Highly attractive to deer with a high sugar content
- Includes Whitetail Oats - an oat variety so attractive it was removed from university grain-production trials and shelved due to heavy grazing by deer
- Winter hardy
- Includes small amounts of a specially selected winter wheat and triticale to boost cold-tolerance even further

AVAILABLE FROM WHSE:1

Prince#	Mfg#	Size	MP	UPC	M/O
047338	WOP45	45 #	45	789976400457	1

### WINTERGREENS (COVERS .5 ACRE)

- More attractive to deer than any other brassicas tested by the Whitetail Institute
- Fortified with a small amount of Whitetail Institute's Tall Tine Turnip
- Highly nutritious late season food source
- Establishes and grows rapidly
- Extremely drought and cold tolerant
- Provides abundant tonnage, attraction and energy in the early and late seasons
- Deer love the taste of Winter-Greens
- You'll love knowing they have a good source of nutrition during the winter
- Best of all, the deer will come looking for it on your property

**MINERALS**

**MINERAL AVAILA-4**

- A nutritional feed ingredient for animals that contains a combination of organic zinc, manganese, copper and cobalt
- These trace minerals are required by animals for numerous functions
- Including: immunity, reproduction, skin and hoof integrity, growth and muscle development, milk production, fiber digestion and energy metabolism
- In addition, when an animal has the proper balance of trace minerals it is better able to cope with the challenging effects of stress
- Built on a unique, patented molecule that consists of one metal ion bound to one amino acid ion called a metal amino acid complex

- The most bioavailable trace minerals on the market, which means more of the minerals are absorbed by the animal to deliver their full benefit
- Delivering positive animal performance responses and a strong return on investment in operations around the world for over 40 years.
