

# Wild Bird Feeding Seminar

---

PRESENTED BY: PRINCE CORPORATION

# Overview

---

Prince Corporation has been in business since 1922

Located in Central Wisconsin

Manufacturing Wild Bird Food since the 70's

We were one of the first with a mill exclusively for wild bird food

We serve and support the independent market

**Prince**<sup>®</sup>  
CORPORATION

# FUN FACTS

---

Over 55 million Americans over age 16 feed the birds

Over \$3 Billion is spent annually on bird food

Over \$800 million is spent on bird feeders annually

Birds cannot smell and eat solely by instinct

# WILD BIRD FOOD

## Manufacture four lines:

- America's Favorite
- Prince Wild Bird
- Nature's Select Premium Mixes
- Plus, we do hundreds of private label custom blends

*America's*  
FAVORITE

*Prince*  
"Quality Seeds Birds Flock To Eat"

*Nature's*  
SELECT

# THE PRINCE DIFFERENCE

---

## **We do not least-cost formulate our mixes**

- You get the same product, every time

## **Proud members of the Wild Bird Feeding Industry**

- Proud supporter of Project Wild Bird
- All of our mixes are approved by the WBFI Quality Standards Program

## **Prince takes prides on having one of the cleanest seeds on the market**

- We only use fresh ingredients
- We do not mask dirt with oils.
- We continually mix while bagging
- We use one of the most sophisticated mixing systems.

## **Prince offers a 100% satisfaction guarantee**

# BIRD FEEDING BASICS

---

**Did you know that over 100 North American bird species supplement their natural diets with birdseed, suet, fruit and nectar obtained from feeders?**

**Winter Feeding is especially important to birds. They look for reliable food sources as natural diets are scarce, or covered by snow.**

## **What you can do?**

- Provide clean, fresh, thawed water for cleaning and pruning
- Provide high fat, high protein diets to help birds maintain their body temperature in the cold months
- Place feeders close to shrubs and bushes as much of the natural cover, like leaves, is not present in Winter.

# BIRD FEEDING BASICS

**To keep birds coming back to your feeders in any season provide them with the following three essential elements:**

1. Fresh water for drinking and bathing
2. Variety of fresh, quality seed
3. Ample, protective cover - preferably trees, shrubs, and plants

# READING TAGS

- Overall mix quality is determined by the various content and mixture of seeds
- Ingredients are listed in order of largest percent to smallest percent
- Many inexpensive mixes will have 3-4 ingredients, are sprayed to mask dust and dirt, and are least-cost formulated
- An indication of least-cost is when generic terms for ingredients are used, such as “field seeds” or “grain products”
- When sprayed, an oil may be listed such as mineral oil, soy oil, etc.
- All of our tags clearly list the primary species of bird and the preferred feeder to use with our mix.

### INGREDIENTS

Black Oil Sunflower, Safflower Seed, Striped Sunflower, Sunflower Meats, Peanut Pickouts

*Primary Species:* Cardinals, Jays, Woodpeckers, Towhee, Grosbeak, Titmice, Chickadees

*Preferred Feeder:* Hopper, Tube, Large Holes, Platform

Store in a Cool Dry Place.

Manufactured by:  
**PRINCE** CORPORATION  
Marshfield, Wisconsin 54449

**Allergen Statement:** The ingredient label on this product accurately reflects the contents of this package added by design. This product is processed, packaged and/or stored in facilities that also may process, package and/or store peanuts, tree nuts of all types, wheat, eggs milk products and soy, and thus may also contain particles of one or more of those ingredients.

Net Weight 30 Lbs./13.6 Kg

# PREFERRED SEEDS

## Most desirable seeds are sunflower

- Whole blacks
- Hulled
- Pieces
- Stripes
- Meats

## Nyjer seed

- Highly desirable, especially for Finches and Nuthatches

## Safflower

- Desirable for birds such as Cardinals

## Fruits

- Desirable for birds such as Orioles, Mockingbirds, Grosbeaks, Bluebirds

## Insects, such as Mealworms

- Desirable for Bluebirds, Robins, Chickadees, and Woodpeckers

## Peanuts and other nuts

- Desirable for Woodpeckers, Nuthatches, Jays, Chickadees, Mockingbirds

Black Oil  
Sunflower

Sunflower  
Meats

Peanuts

Nyjer

Premium Meats

Striped Sunflower

Safflower

# FILLER SEEDS

---

## Red and White Millet

- These are two of the more useful fillers, many birds do like

## Cracked Corn

- May get kicked on ground, will not germinate
- Birds such as Jays, Doves, Squirrels will eat these seeds

## Milo, Wheat, Oats, Grit

Millet

Corn

# SUET

- Most birds like suet
- More popular in cooler temps though many no melt varieties are available
- Birds need to replace their fat daily, suet is a great source
- Will help deter Woodpeckers from pecking on your home

Suet Feeder with Tail Prop

Upside Down Suet Feeder

# BLOCKS AND BELLS

Hassle free feeding alternative  
Simply unwrap and use  
Uses a natural protein binder  
Many varieties available.

# BIRD FACTS

- Birds visit feeders most often in the early morning and again just before dusk
- They use feeders less often in the afternoon and during rainy weather
- In contrast, many birds will feed at feeders just prior to it snowing
- Moving water is highly attractive to wild birds
- Birds are instinctually attracted to foods with a high fat and protein content
- Stringing fishing line keeps the sparrow away from your feeders.
- Dove's and Cardinals mate for life.
- The males are usually the more beautiful birds: Cardinals, Goldfinches

# SEED CHOICES

## GOOD-BETTER-BEST-UNBELIEVABLE

- All product mixes made by Prince are naturally clean and use fresh ingredients
- Mixes and ingredients are not sprayed to mask dirt or dusty product
- All products are consistent due to our mixing process

Backyard Gourmet

*America's*  
FAVORITE

NO-WASTE

Top of the Line! Only the finest meats are used in this totally consumable mixture, so there are no hulls to litter your lawn! It's also economical because you are only paying for what the birds are eating! Formulated to attract wide variety of colorful birds.

*Will Attract: Chickadees, Titmice, Nuthatches, Goldfinches, Cardinals, Jays, & Juncos*

# America's FAVORITE

## ELITE

One of the finest blends available on the market today! It has a higher percentage of sunflower seeds than most competitive blends, thus offering more energy to your feathered visitors. This mix contains 9 quality ingredients and is a perfect blend during the harsh winter season. This blend is attractive to large variety of birds.

*Will Attract: Chickadees, Titmice, Nuthatches, Grosbeaks, Finches, Siskins, Redpolls, & more!*

*America's*  
FAVORITE

# GOOD FRIEND

This blend is over 25% Black Oil Sunflower, making it very attractive to many colorful birds. All types of birds are attracted to this mixture. This all-season blend is the mainstay in many backyard feeders.

*Will Attract: Nuthatches, Chickadees, Cardinals, and more*

# America's FAVORITE

## CLASSIC

An economic and appetizing mixture. Using quality ingredients, this variety blend is formulated to attract a wide array of birds to your backyard.

*Will Attract: Cardinals, Juncos, Jays, Mourning Doves & more.*

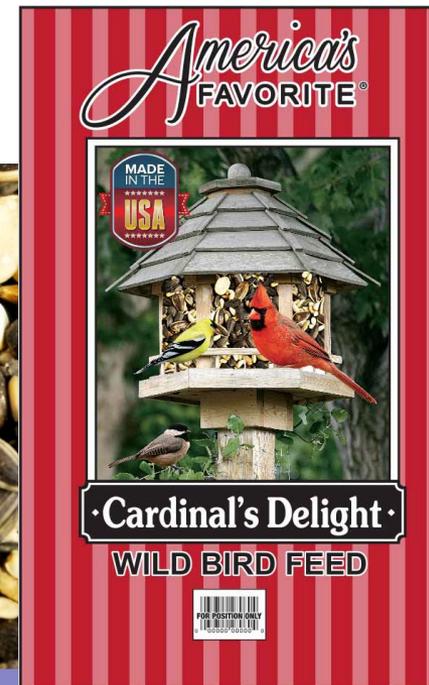

*America's*  
FAVORITE

# CARDINAL'S DELIGHT

Get set for the Cardinals to flock to your feeders. Perfect for the bird enthusiast who would like to attract a more select variety of birds to their backyard.

*Will Attract: Cardinals, Grosbeaks, Chickadees, Nuthatches, Titmice & more*

*America's*  
FAVORITE

# GOLDFINCH

This Finch specialty mix has a special blend of ingredients to attract colorful Finches and Pine Siskins. This is an economical alternative to feeding straight Nyjer Seed.

*Will Attract: Goldfinches, Siskins, Redpolls, Grosbeaks & Chickadees.*

Goldfinch

*America's*  
FAVORITE

# FRUIT & NUT

Our best blend of quality, triple cleaned ingredients formulated to attract the widest variety of birds.

*Will Attract: all seed eaters including, but not limited to Junco, Cardinal, Kinglet, Blue Jay, Titmouse, Bluebirds, Chickadee, Nuthatch, Crow, Redpoll, Dove, Native Sparrows, Gold Finch, White Throat Sparrows, House Finch, Towhee, Purple Finch, Woodpecker varieties and Orioles*

Goldfinch

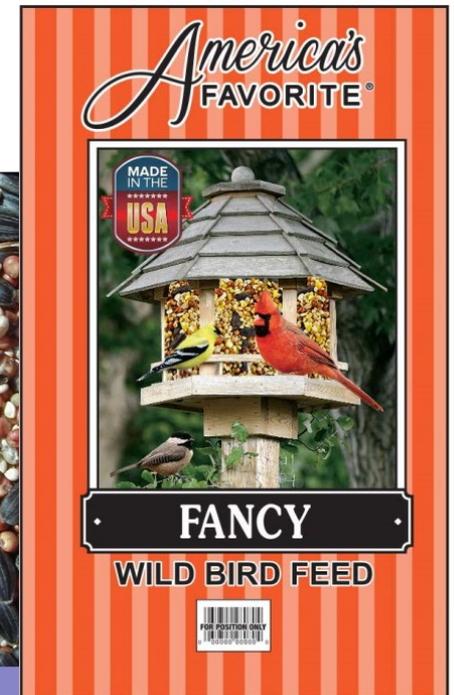

# America's FAVORITE

## FANCY

Our A good blend of quality, triple cleaned ingredients formulated to attract the widest variety of birds. This mix attracts all seedeaters

*Will Attract: Nuthatches, Blue Jays, Pheasants, Cardinals, Native Sparrows, Chickadees, Titmouse, Doves, Towhee, Duck, Turkey, Grosbeak, Woodpecker varieties and Junco*

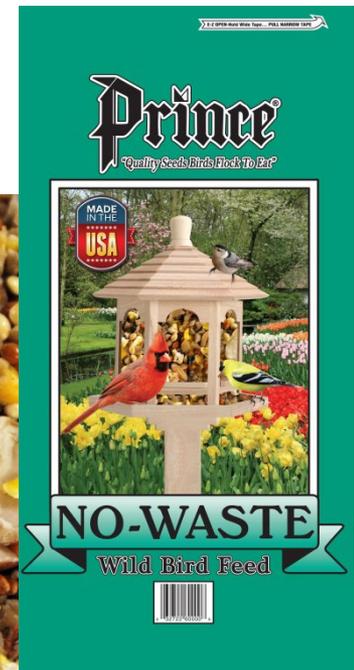

# NO-WASTE

This “Waste Free” mix is the top of the Prince line. Only the finest meats are used in this totally consumable mixture. There are no hulls to letter your lawn. Plus, it is economical because you are only paying for what they are eating.

*Will Attract: Chickadees, Titmice, Nuthatches, Finches, Cardinals, Jays and Juncos.*

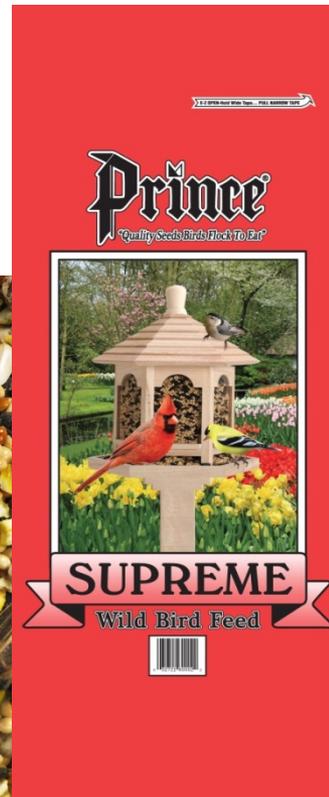

# SUPREME

This is one of the finest blends available on the market today. It has a higher percentage of sunflower seed than most competitive brands, offering more energy to your feathered visitors. The array of ingredients attract a variety of colorful birds. This mix is perfect for the bird feeding enthusiast

*Will Attract: Cardinals, Finches, Juncos, , Mourning Doves, Chickadees and & siskins.*

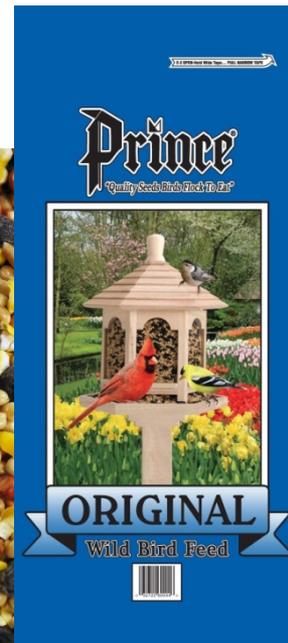

# ORIGINAL

This economical high quality mix is great for starting out. The wide variety of seeds attract many different types of birds to this mix. If you're just beginning your bird feeding hobby, then this economical high quality is perfect for year round feeding. Get to know your feathered friends!

*Will Attract: Cardinals, Juncos, Jays, Mourning Doves, & more.*

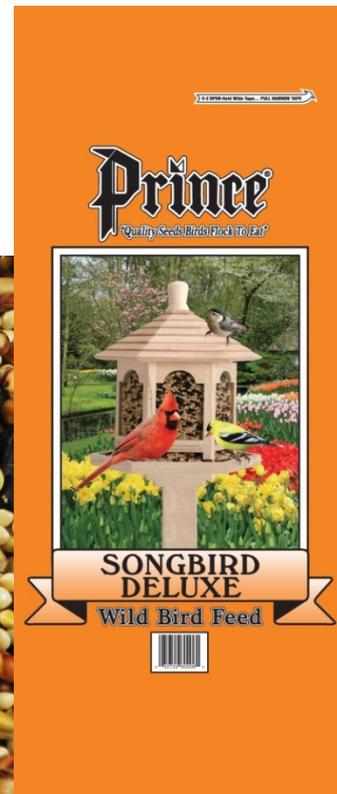

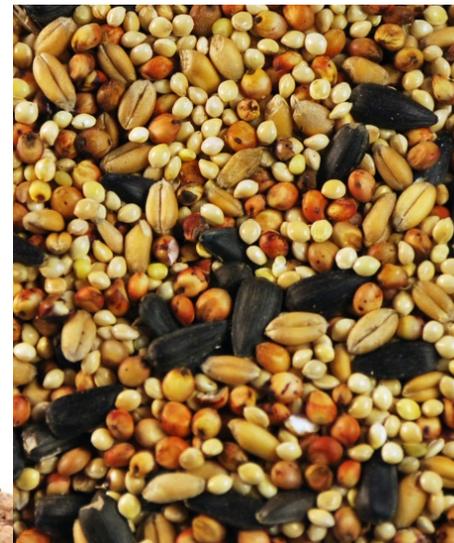

# SONGBIRD DELUXE

Songbird is an economical, all-purpose no corn blend that is mixed using clean, quality ingredients while keeping the price conscious bird enthusiast in mind.

*Will Attract: Mourning Doves, Cardinals, Sparrows, Jays & more.*

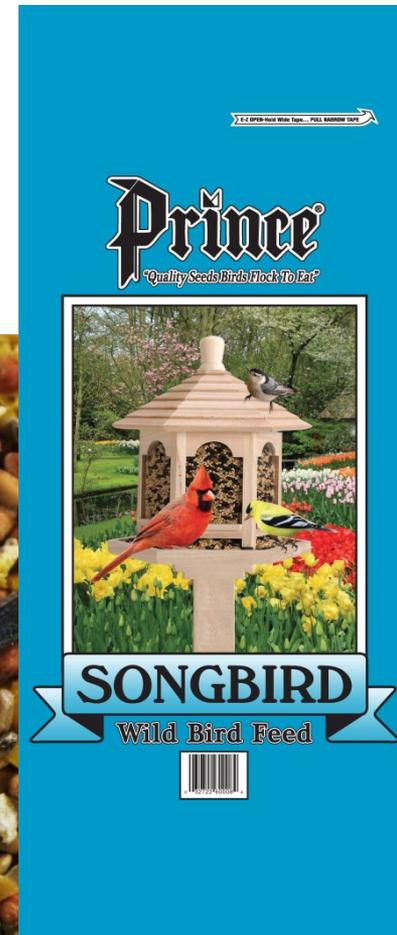

# SONGBIRD

This economical, all purpose blend uses the same quality ingredients as our other blends, at a great price!

*Will Attract: Mourning Doves, Jays, Towhees, Cardinals, Sparrows & more.*

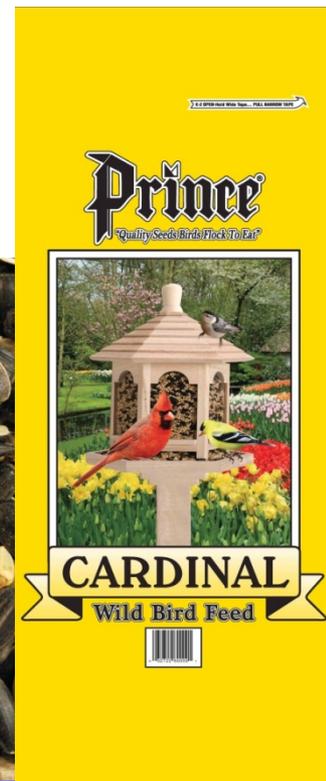

# CARDINAL

This specialty blend of Sunflower, Sunflower Meats, and Safflower is great for the bird enthusiast that would like to attract a more specific variety of birds to their yard. Cardinals, especially, will find this mix irresistible and are sure to flock to your feeders for their favorite seeds.

*Will Attract: Cardinals, Evening Grosbeaks, Red Breasted Grosbeaks, Chickadees, & more*

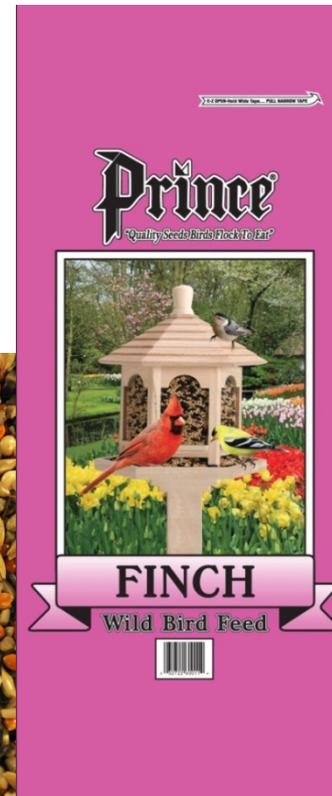

# FINCH

For the bird feeding enthusiasts who would like a little more focus on Finches and Pine Siskins in their backyard. This is an economical alternative to feeding straight Nyjer® (Thistle) Seed. Only the highest quality ingredients are used in this Prince specialty mix.

*Will Attract: Goldfinches, Siskins, Redpolls,  
Grosbeak, & Chickadees*

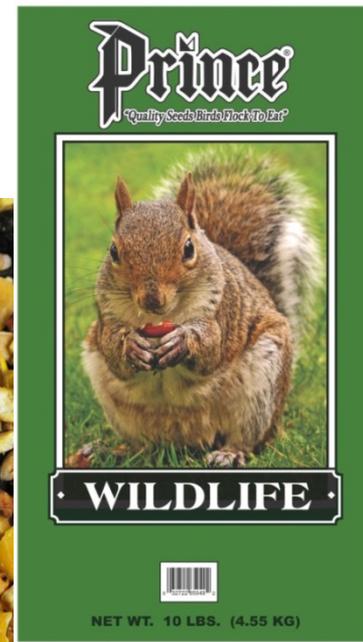

# WILDLIFE MIX

Squirrels: If you can't beat 'em, feed 'em. Today many backyard bird feeding enthusiasts are also feeding the squirrels. Place that feeder far enough away from your bird feeders to deter them from disturbing your feathered friends.

*This is a great wildlife blend and will attract a variety of enjoyable, backyard friends.*

# FRUIT & NUT

This mix provides over 8 different ingredients to guarantee a variety of beautiful songbirds. Carefully blended with real fruits and nuts, it is a mix that birds will surely crave.

*Will Attract: Cardinals, Grosbeaks, Finches, Jays & more*

# BACKYARD GOURMET

This high fat, high protein blend is sure to become a backyard favorite. We have combined only the richest ingredients to offer the maximum energy to your feathered friends. This is a great blend for Winter feeding.

*Will Attract: Chickadees, Nuthatches, Titmice, & more*

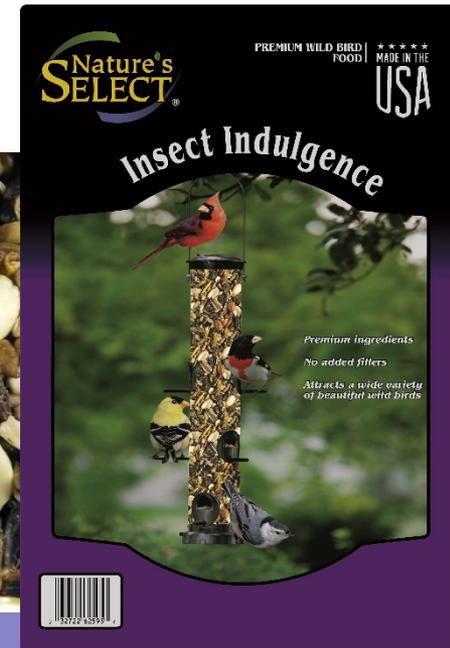

# INDULGENCE

Insect Indulgence contains a variety of feeder favorites in combination with dried mealworms. Dried mealworms are naturally high in vitamins and protein and this bird delicacy will attract all types of birds to your backyard.

*Will Attract: Bluebirds, Chickadees, Wrens, Titmice, Woodpeckers & more*

# CARDINAL

Two favorites of the Cardinals, sunflower and safflower make up the majority of this mix to ensure that Cardinals flock to your feeder. This blend also contains a variety of fruits making it appealing to many colorful birds.

*Will Attract: Cardinals, Jays, Grosbeaks & more*

# WOODY'S GOODY

The name says it all. This is a rich blend of seven different ingredients to attract a variety of larger birds to your feeder. Its unique blend includes tree nuts and pumpkin seeds in addition to many other favorites.

*Will Attract: Woodpeckers, Blue Jays, Nuthatches, & more*

Downy Woodpecker

# FINCH'S FEAST

This is one of the finest finch and small bird mixes on the market today.

With almost half the mix being Nyjer seed, this will surely be the backyard choice of finches and small birds in your neighborhood.

*Will Attract: Finches, Siskins, Redpolls & Chickadees*

# CHOOSING A FEEDER

Specific feeders are used for specific mixes and seed types

Additionally, certain feeders will attract certain types of birds

The following are a variety of feeders to accommodate specific types of birds and their diets

Choosing more than one will help attract more species and avoid feeder congestion

# FEEDERS

## GOOD – BETTER – BEST

### 3 Categories

**Good**

- \$10 range, usually thinner plastic, last maybe 1-2 years and then you throw away.
- Perky Pet, Opus, Gardman, Songbird Essentials

**Better**

- \$15 - \$30, some are plastic or metal, decorative but functional, have larger perches, UV coated tubing, last longer
- Homestead, North States, Stokes, Droll Yankees American Bird Line, No-No, Brome

**Best**

- \$30 or greater, usually have a lifetime warranty, screwed not stapled, chains not ropes, best quality materials
- Nature's Select, Woodlink, Droll Yankees, Aspects, Stovall, Nature's Way

# SUNFLOWER SEED TUBE FEEDERS

Droll Yankees  
New Generation Seed Tube

Homestead Meadow Vine

If you are going to put out just one feeder, this is your best choice

Hang the feeder at least five feet off the ground and try to position it near a window where you can enjoy the visitors

Such as: Chickadees, Titmice, Nuthatches, Goldfinches, Siskins and Purple and House Finches

# GROUND FEEDERS

Simple screen-bottomed trays

Typically sit several inches off the ground or your deck

Should be placed in open areas at least 10 feet from the nearest tree or shrub to give birds a chance to flee predators

Doves, Juncos, Sparrows, Towhees, Goldfinches and Cardinals are all likely to visit ground feeders

Avoid using ground feeders if cats are likely to pounce from nearby

Cedar Ground Feeder

# HOPPER FEEDERS

- Hopper feeders keep several pounds of mixed seed dry and ready for hungry birds
- Will draw all the species that tube feeders attract, along with larger birds like Jays, Grackles, Red-winged Blackbirds and Cardinals

Cedar Hopper Feeder

# NYJER FEEDERS

Perky Pet  
Upside Down  
Finch Feeder

Nature's Select 15"  
Finch Feeder

- Especially designed to dispense thistle (Nyjer) seed and Finch mixes
- Have tiny holes that make the seed available only to small-beaked finches such as Goldfinches, Redpolls and Pine Siskins

Droll Yankee 15" Finch  
Flocker

# HUMMINGBIRD FEEDERS

## Feeder Facts-

- Maintaining a backyard hummingbird feeder can help provide the birds with nectar critical to their survival, especially during the fall when they need to double their body mass before migration – contrary to a common fear the extra food won't stop a hummingbird from migrating south when it's time for it to go.

## Fun Hummingbirds Facts-

- They are the only birds that can fly upside down, front, back, and sideways at up to 30 mph
- They are the only bird that can hover – because they can flap their wings 220/second

Hummingbird Migration Maps

<http://www.worldofhummingbirds.com/migrationmap.php>

Droll Yankees  
Hummingbird Feeder  
Item #290967

# HUMMINGBIRD SAFEGUARDS

**NEVER** use honey

- Honey promotes the growth of harmful bacteria, or artificial sweeteners

Also avoid red food coloring

- The coloring in commercial nectars is safe

Instead of one large feeder, hang several smaller ones in different locations

Keep the feeders far enough apart that the hummingbirds cannot see one another

Fill the feeders with fresh nectar 1-2 times a week

Hang your feeders in the shade

Clean the feeders with a solution of one part white vinegar to four parts water about once a week

# ORIOLES

In addition to nectar, Orioles also enjoy fresh fruits

- Especially oranges, apples, peaches, berries and bananas

They eat insects and meal worms, along with jelly – especially grape and orange marmalade, bread scraps and peas

# ANTI-SQUIRREL SAFEGUARDS

Squirrels are a notorious nuisance for birds and the people trying to feed them. These rascals have uncanny acrobatic abilities and a seemingly unstoppable determination.

- Exclude them-
  - Placing feeders on a pole in an open area, at least five feet off the ground
  - Place as far as possible from your house and nearby trees
  - REMEMBER - squirrels can jump as far as six feet
- Baffle them-
  - Attach a baffle or deterrent to the feeder pole
  - You can buy special squirrel baffles

Heath Hanging Squirrel Baffle

Perky Pet Squirrel Be Gone Feeder

**NEVER USE STRAIGHT HOT PEPPER, IT IS VERY DANGEROUS FOR SQUIRRELS**  
Some vendors do make a safe cayenne pepper powder you can mix with your own seed.

# SQUIRREL FUN

## IF YOU CAN'T BEAT 'EM, JOIN 'EM

Squirrels are highly entertaining to watch.

**Distract them with-**

Droll Yankee  
Flipper Feeder

Nature's Select  
Squirrel Chair Feeder

Nature's Select Squirrel  
Feeder

Homestead Cobs a Twirl

At least 4 feet off the ground

Close to natural cover for quick escape of predators

Easy to see, convenient to refill & clean

Place several feeder types at various heights to attract the greatest number of bird species

Consider window safety

# MAINTENANCE & HYGIENE

**Cleaning is crucial for overall health and safety of the birds**

## **Disinfect your feeder and birdbath:**

- Immerse your seed feeder or birdbath in a nine to one water-bleach solution, rinsing it thoroughly, one to two times per month, or clean with a commercial cleaner

## **Empty water from your birdbath every day:**

- Brush or wipe it clean and rinse, then refill the birdbath with fresh water.

## **Discard old seed and hulls:**

- When you clean your feeder, get rid of the old seed.

## **Avoid overcrowding:**

- If possible, provide more than one feeder and spread them out.

Allied Precision Water  
Wiggler in birdbath

Alpine Ceramic  
Birdbath

# POINTS TO CONSIDER

## Accommodating various feeding styles and preferences

### Possible hazards to the birds-

- Window collisions
- Prowling cats
- Thieving squirrels

### Position feeders at different levels

- Sparrows, Juncos, and Towhees usually feed on the ground
- Finches and Cardinals feed in shrubs
- Chickadees, Titmice, and Woodpeckers feed in trees

### To avoid crowding and attract the greatest variety of species

- Provide table-like feeders for ground feeding birds
- Hopper or Tube feeders for shrub and treetop feeders
- Suet feeders well off the ground for Woodpeckers, Nuthatches, and Chickadees

# NESTING

## Provide plenty of nesting materials

- Yarn
- Dog Hair
- Human Hair
- Feathers
- Dryer Lint

Songbird Essentials  
Nesting Wreath

## Provide Nest Boxes

Nature's Way  
Bluebird Viewing  
House

Cedar Wren House

Cedar Bluebird  
House

# WINDOW COLLISIONS

- In the United States, approximately 1 billion birds die from flying into windows each year
- Protect birds from collisions by placing feeders within three feet of windows or further than 10 feet to accommodate for the bird's take off and landing
- Mobiles and opaque decorations hanging outside windows help to prevent bird strikes
- Commercial decals are available from Pacific Bird, Droll Yankees, Songbird Essentials
- Attach fruit tree netting outside windows to deflect birds from the glass

# CATS

---

## **The location of your feline friends are important, too.**

- Cats kill hundreds of millions of birds annually in the United States, often pouncing on ground-feeding birds and those dazed by window collisions
- Outdoor cats are especially dangerous to birds in the spring when fledglings are on the ground
- Bells on cat collars are usually ineffective for deterring predation.

# TEST YOUR KNOWLEDGE

---

1. What is the state bird of Wisconsin?
2. What is the preferred seed of the majority of Wild Birds?
3. Why buy wild bird mixes?
4. Who makes the best wild bird food?

# DESIGN TO ATTRACT

Combine these essential elements

**Food** – nectar, seeds, nuts, fruit and berries, & suet

**Shelter** – cover from predators, breeding places and nesting sites, specialty houses

**Water** – Ponds, fountains, bird baths, or other water elements

# TAKE A CUE FROM NATURE

---

Natural areas tend to have vertical layers, each attracting and providing something important to different bird species

- Trees
- Shrubs
- Perennials
- Vines
- Groundcover

# HABITAT - TREES

## Maple

- Attracts Grosbeaks, pine siskin, cardinal, nuthatches, chickadee, brown creeper, warblers, wren, and many others
- Provides seeds, buds, sap, insects

Photo courtesy of:  
[www.monrovia.com](http://www.monrovia.com)

## Mighty Oaks

- Attracts 60+ species, including brown thrasher, blue jay, nuthatches, woodpeckers and titmouse
- Provides acorns, insects

## RIVER BIRCH

Attracts: robins, bluebirds, thrushes, catbirds, cardinals, waxwings, Pine Grosbeaks, finches and many others

Food Type...flower buds, flowers, fruit, seeds

## CRABAPPLE

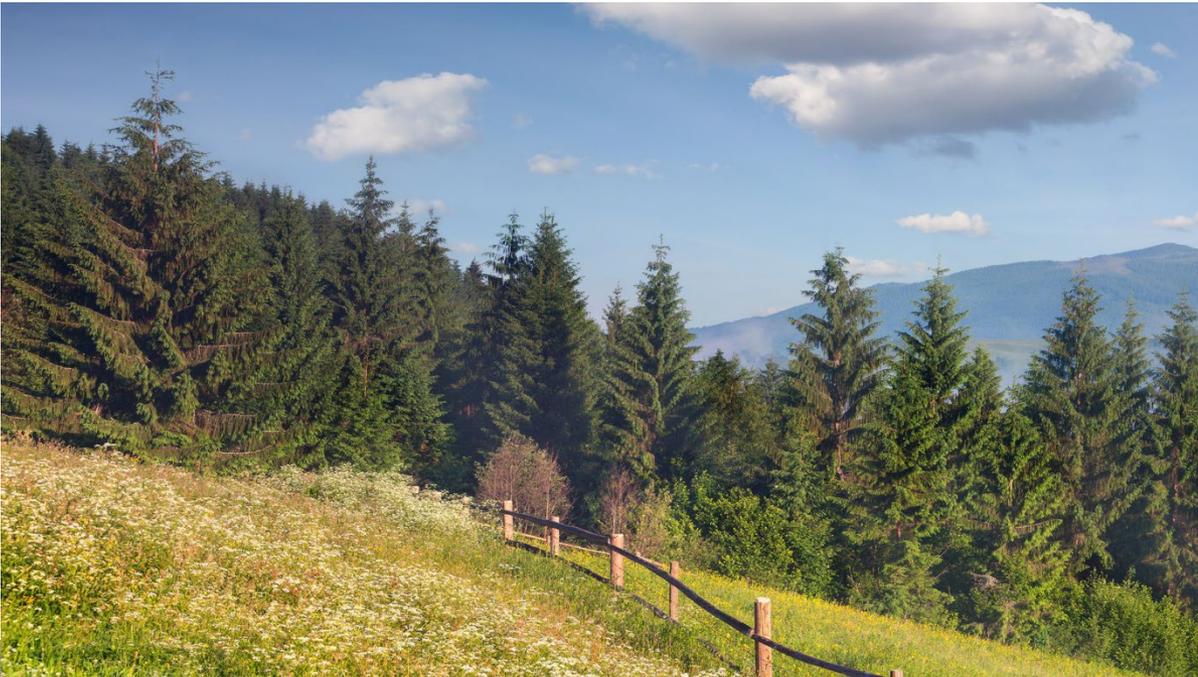

- 35 + Species, including songbirds, juncos, blue jays, chickadee, waxwing and finches
- Provides seeds, flower buds, insects

# HABITAT - TREES

## Take a Cue From Nature

**Plant at least one grouping of conifers. These plants provide year-round windbreaks, shelter and nesting sites**

- **Spruce**
- **White Pine**
- **Hemlock**

# HABITAT - SHRUBS

---

Shrubs provide food, hiding places, shady resting spots, quick cover from predators and provide a great nesting habitat for birds.

Plant tall shrubs for screens, barriers, hedges and backgrounds.

Smaller shrubs complement flower borders and visually lead your eyes to larger background plantings

# HABITAT - SHRUBS

## Butterfly Bush

- Attracts hummingbirds and other songbirds as well as butterflies
- Provides nectar and insects, bees

## Clethra

- Attracts songbirds including robin, goldfinch and warblers
- Provides seeds that persist through winter

# HABITAT - SHRUBS

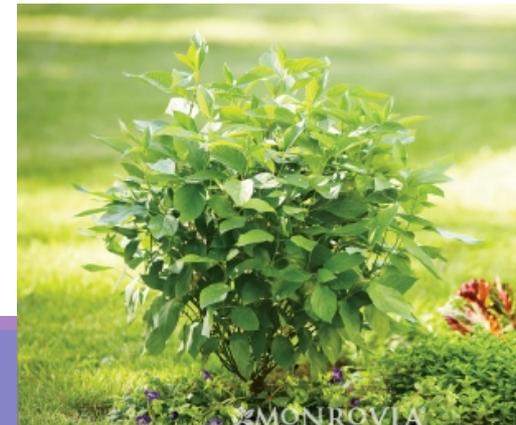

## Rose of Sharon

- Attracts robins, goldfinch, sparrows, nuthatch and hummingbirds
- Provides seeds, nectar

## Red Twig Dogwood

- Attracts: Robins, bluebirds, thrushes, catbirds, vireos, kingbirds, juncos, cardinals, warblers, Wild Turkey, grouse, others
- Provides fruit in summer

# HABITAT - PERENNIALS

---

**Perennials - Are non-woody plants that live at least two to three years, and are critical in supplying birds with seeds and nectar.**

**Many have foliage that dies back in the winter but sends up new growth the following spring.**

# HABITAT - PERENNIALS

## Echinacea

- Attracts many species including goldfinch and pine siskin
- Provides seeds

## Asters

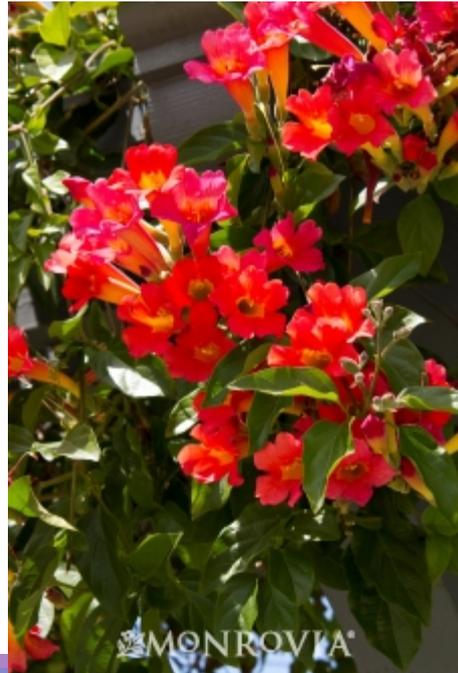

- Attracts cardinals, chickadees, finches, nuthatches, sparrows and many more
- Provides seeds

# HABITAT - PERENNIALS

## Honeysuckle & Trumpet Vine

- Attracts hummingbirds
- Provides nectar

# HABITAT – FLOWERING PLANTS

## Columbine

- Attracts hummingbirds
- Provides nectar

## Rudbeckia

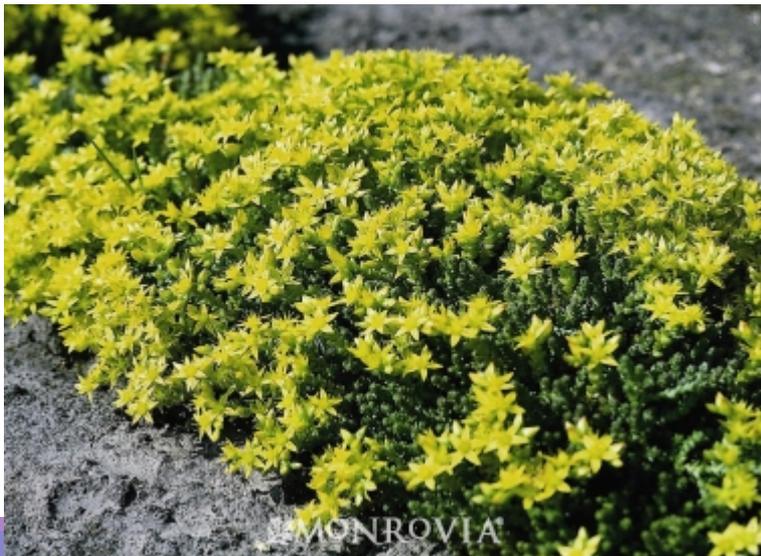

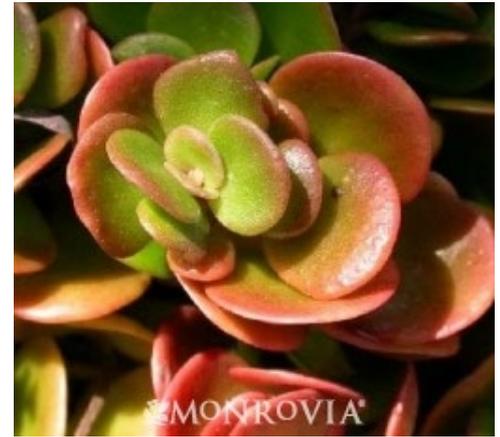

- Attracts many species including American goldfinches, chickadees, cardinals, nuthatches and sparrows
- Provides seeds
- Goldsturm... old-stand by Black-eyed Susan everybody is familiar with.

# HABITAT – GROUND COVERS

## Sedum & Juniper

- 50+ species, including warblers, junco, sparrows, robin, tree swallow, and waxwing
- Provides little cones, seeds
